Fixed Cellular Terminal

A CUBE

☐ GSM   ☐ DC5V
☐ CDMA   ☐ DC12V

User's Manual

Product Introduction

Congratulations on purchasing of our Fixed Cellular Terminal. Before using this terminal, please kindly read this user guide carefully.
This is our new design, which uses GSM /CDMA networks to operate. You can dial the local calls, domestic and international calls with this Terminal connecting with a common wired desktop phone and a standard SIM card.
It is widely used in these areas:
Remote country
Mountains
Dwelling house with weak signals
Public telephone shops
Offices
Removable places such as Ships, Trains, and Long distance buses
Our wireless Terminal also has these characteristics as below:
Easy to install
Easy to operation
Powerful capacity of signals receiving
Clear talking setting
Long using life
Steady performance

Key Technical Specifications

Following are the key technical specifications of this Terminal:
1.Networks support:
GSM900/ 1800MHz
GSM850/900/1800/1900MHz (Industrial Module item)
CDMA 800MHz
2.Frequency range:
GSM 850MHz (Transmits: 824-849MHz, Receives: 869-894MHz)
GSM 900MHz(Transmits: 890-915MHz, Receives: 935-960MHz)
GSM 1800MHz (Transmits: 1710-1785MHz, Receives:1805-1880MHz)
GSM 1900MHz (Transmits: 1850-1910MHz, Receives:1930-1990MHz)
3. Voltage: DC5V/DC 12V
4.Stand by hours: 48 Hours
5.Talk time: 2-6 Hours
6.Charging time: 6 hours
7.Power consumption: Static ≤ 25MA emission ≤ SOOMA
8.Peak power consumption: 0.25W/0.5W
9.Receive sensitivity: -104db
10.Antenna increment: All directions :S. Odb Certain/
    Selection: 12 db

Key functions

The key functions of the Terminal are list as below:
1 .Multi-function LED /LCD light display Signal, running state
2.Can dial the local calls, mobile calls, international calls and special free calls
3. Built in Watching duty circuits, machine any fault will restart.
4.Provide standard communication Voltage, support DTMF system, Caller ID Display.
5.Caller ID Display, Time & Date Display, the Power Supply of battery can Display at the same time on the LCD.
6.Automatic card-locking and net-locking enable.
7.Supports modem mode

Connect the terminal

Installing the Antenna
To choose a proper place for the antenna is the first and very important step for antenna installing. You can use your mobile phone to search for the place where the strongest signal is. Then put the antenna here.

Please do not make the antenna too close to the terminal. It will disturb the signal of the terminal. Please do not make the antenna and the terminal too close to the TV set, computer, and radiogram. It will disturb the signal of the terminal.

Inserting a SIM Card

Make sure the terminal is switched off and the AC adapter is unplugged: insert the SIM card only when the terminal is switched off and the AC adapter is unplugged. According to the chart instructions

DIAGRAM

Connecting your terminal with desktop phone

If you want to use the terminal to make calls, you should connect the terminal with a common wired desktop phone.

There is one or two communication portals at the back of the terminal.You can connect one desktop phone and billing

machine (optional) with our terminal. It's very easy to connect the phone and terminal, just need a common communication cable

Call

Make or Receive a call is Similar to your Fixed Lines.
When your phone is ringing just lift up the handset of the telephone set and speak.
Dial your number, after a timeout (end of dialing timeout default value: 6sec) the call will be launched. To speed up you can Press# as the end of the number.

Packing List

With the Fixed Cellular Terminal, there are some accessories. When you get the terminal please check them and to see whether you have all of them. Please contact us or call the distributor in your area to hand back the absent parts if you find that you lack one of them as below.

Name	Quantity	Remark
DC adapter	1pcs	DC5V/DC12V
Special antenna	1pcs	
User Manual	1pcs	English

Option for setting

Our Fixed CellularTerminal support these setting
You can use the common settings starts with these steps:

1.Take up the Terminal or press the "Hand free" key.
2.Input the setting order which you need as they are list as below:

*00#000#   Return to the reset setting.
*00#010#   Lock the SIM Card automatically
*00#011 #   Lock the SIM Card manual (the Terminal will offer
              the new PIN code "4321" automatically, and your
              SIM card original PIN Code is "1234")

*00#012#   Unlock the SIM Card and the PIN will be "1234"
*00#013#   Lock the China Mobile Networks
*00#014#   Lock the China Unicom Networks
*00#015#   Cancel the Networks locking setting

When you want to change the automatically card locking into manual card locking, then you can operate it like this:

1. Take up the phone or press the "Hand free" key.
2. Input *00#087#, the se tting is finished.

Dial number Block (Optional Setting)

If you want this Terminal to forbid some numbers 'you can set it like this:(Max for 10 groups)
*00#020#AB# the number start with "AB"   is blocked
*00#021#CD# The number start with " CD "   is blocked
*00#022#EF# The number start with "CD"   is blocked
....
*00#029#XY#   The number start with "CD"   is blocked29

For example, If you want to block someone to use this Terminal to make a call, and the phone
1 number is beginning with 31 (e.g. the numbers are 3100581,3100582,3100583,3111007,
3122867 etc), then you can set it like this:
1 .Take up the phone or press the " Hand free" key.
2. Input "*00#020#31#",then all of the numbers which start with 31 is blocked to dial.
You can also forbid the numbers start with CD, EF, GH etc. But the Max is 10 groups.
 If you want to cancel this setting, then you can operate it like this way:
1 .Take up the phone or press the "Hand free" key.
2. Input "*00#040#" , then all of the calls is allowed again.

If you want to cancel this function, you can operate in this way:
1 .Take up the phone 1 or press the " Hand free " key.
2. Input " *00#080#" , then all of the calls is allowed again.

Incoming number Block (OPTIONAL)

If you do not want someone to call back you, then you can forbid all of the calls. It means you can use this setting to block the incoming calls. You can set it in this way:
1 .Take up the phone 1 or press the " Hand free " key.
2. Input " *00#041#" , then you can block all of the incoming calls. No one can call back to
you. But you can call others.

Volume Adjustment

You can adjust the volume of the Terminal in this way:
1.Take up the phone or press the "Hand free"   key.
2. Input "*00#047#06#," or "*00#047#09 #," the number 06 stand for the Min sound and the number 09 stand for the Max sound.

Time and Date Setting

The time and date form is YY/MM/CDD/HH/MM/SS (year/month/date/hour/minute/second),
you can set the time and date in this way:
1 .Take up the phone or press the "Hand free"key.
2. Input "**00#046#YYMMDDHHMMSS#" .

Troubleshooting

Trouble
(Display on LCD)
1. 030004
2. ERR-001
3. No display on LCD and the LED indicator is power off

Reasons
1 . No signal or the signal is too weak 2. The connection between the SIM card and SIM holder is not good
2. The Cell phone is broken
3. 1 .The switch is not taken on. 2. The 1 .Turn on the transformer is damaged.

Solutions
1. Check the antenna and install it again. Check the SIM Card holder and install the SIM card again.
2. Replace the cell phone board
3. Turn on the switch at the back of the terminal. 2. Ask the dealer to change a new transformer.
